

THETFORD

Awarded prestigious Environmental Certifications

THETFORD have been awarded the world recognised environmental certificate **Blue Angel** and environmental seal **Milieukeur** for Aqua Kem Green and Aqua Rinse.

The Blue Angel is awarded by the German Federal Environmental Agency to those products that meet a stringent criteria with respect to the environment and specifically in the case of these products, the suitability for being used in normal circumstances with sewer disposal without adverse negative effects on the water purification process.

This recognises that Thetford Aqua Kem Green and Thetford Aqua Rinse can be used under all circumstances where waste water ends up in regular sewage system. This includes campgrounds, marinas, home septic systems, petrol stations and tourist parks.

Thetford Toilet Additives are part of an extensive range of portable sanitation solutions available Australia wide. Thetford Toilet Additive products do not contain formaldehyde and are all **safe for septic tank disposal** with dilution.
